

My comment is in regards to Proceeding #02-278. I would hope that the FCC would not implement any proposal that would lesson Indiana's Telephone Privacy law protections. Since we have signed on to the protection of this law we have been able to keep this intrusion into our privacy at a minimum. We could hardly set down for supper when the phone began to ring....sometimes six or seven calls over the supper hour. These people certainly have a right to sell their product but let them go through public advertising to do so (ie newspapers, tv etc) I hope this will not fall on deaf ears. We, the public, have a certain right to privacy. This is a terrible misuse of our communication system. PLEASE...do not lessen the protections we enjoy through the Indiana Telephone Privacy Law....Thankyou, James C. Mould, 1027 Longhorn Dr., Mishawaka, IN 46544
